A man in a dark suit, white shirt, and patterned tie is holding a large, clear crystal ball in his right hand. He is looking directly at the camera with a slight smile. The background is a soft, out-of-focus blue and white gradient.

TIMOTHY
Conover

Imagine a crowd of people involved in a magical experience!

Tim Conover captures the imaginations of audiences everywhere with his energetic and refreshingly innovative presentations. He is a master of close-up and stand-up magic, sleight of hand, thought reading, and mind reading. He combines his vast magical background, together with a dynamic display of showmanship, to make you

believe it is possible to capture thoughts you are only thinking.

Tim provides professional presentations, integrated with your corporate message, to the international business community. Thoughts and ideas are exchanged in a dynamic display of interactive communication. Your corporate message is persuasively delivered with each magical moment.

Tim performs at corporate functions, trade shows, and special event presentations for major corporations around the world. He is widely respected as one of the most creative minds in magic today. Trade shows, conferences, sales meetings, banquets, seminars, and conventions are all miraculously transformed into memorable and inspirational events.

Corporate Presentations

Tim performs a complete stand-up show for sales meetings, seminars, conventions, and a variety of corporate functions. Audience participation, the integration of your corporate message, and a magnetic display of showmanship are all creatively combined into a performance you will remember.

Tim enters the stage highlighted in a spotlight. Your spontaneous thoughts are captured in an entertaining series of thunderbolt presentations. Birth dates are dramatically unveiled. Words randomly selected out of well-known books are instantly revealed. Drawings are duplicated. Borrowed finger rings are linked together, completely examined, and then visually unlinked in slow motion. Three members of the audience construct the elements of a dream vacation and find a complete description sealed in an envelope, inside a wallet, that remains in the spectator's hands throughout the presentation.

With his eyes completely blindfolded, Tim identifies personal objects you choose at random. He divines the serial numbers on bills of any denomination. Personal messages sealed in envelopes are described in intimate detail without ever being

collected. Birthplaces, social security numbers, close friends, birthmarks, important events, situations, and thoughts known only to you are revealed in a delightfully captivating experience.

Trade Shows

Tim researches the strengths of every client he serves and develops a completely integrated presentation that captivates the audience and dramatically delivers your corporate message. Your marketing literature, corporate reports, product and service information, and technical documentation are completely reviewed. A comprehensive list of your strengths, ideas, and achievements is structured into a unique and energetic presentation.

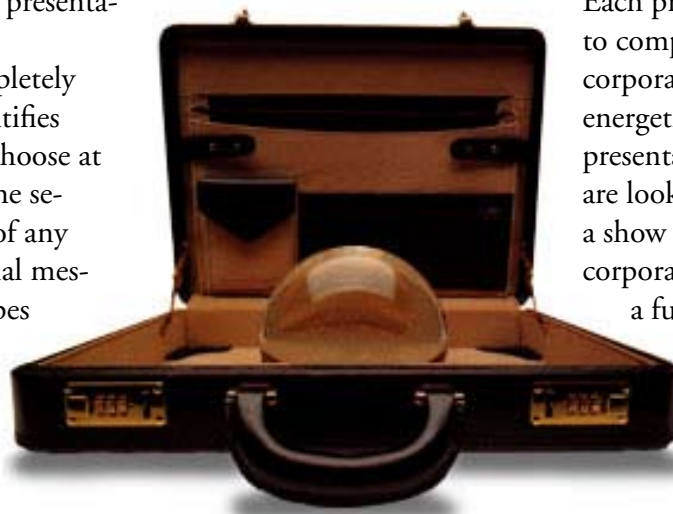

Every hour, on the hour, the presentation begins. Thoughts and ideas are exchanged in an entertaining whirlwind of revelations. Gazing into the center of a crystal ball, Tim divines the personal thoughts of someone

in the audience. Your company's accomplishments and future directions are revealed. Dollar bills visibly change from ones, to fives, to tens, to twenties, to one hundred dollar bills. Your corporate strengths, products, and services are dramatically highlighted as the bills change to larger denominations.

Three different people simply think of a word they randomly see on any page of three different, well-known, business books. Each thought is instantly revealed. The words actually describe your company's commitment to excellence. Personal objects held by members of the audience are described in intimate detail while Tim faces the opposite direction completely blindfolded. Your corporate message is delivered with each thought provoking experience.

Special Events

Tim Conover is an expert in the fields of magic, mind reading, and psychic entertainment. Each presentation is designed to completely integrate your corporate message into an energetic series of interactive presentations. Whether you are looking for entertainment, a show designed with your corporate message in mind, or a full evening presentation, Tim Conover is your solution. Imagine the experience.

Magical Arts Awards

World Summit Gold Medal Award

In 1993, an international magical arts competition offering a large grand prize, a gold medal, and the title of the best magician in the world, was held in Washington, D.C. Magical entertainers around the globe gathered to compete for the championship at the World Summit. Many of those exceptional entertainers are some of Tim's closest friends. They continue to inspire him with their dedication, creativity, and passion. Tim Conover was awarded the grand prize, the gold medal, and the title of a lifetime. He was the first and only mentalist to ever capture the coveted prize.

Dunninger Memorial Award

In 1995, the Psychic Entertainers Association awarded Tim Conover with the Dunninger Memorial Award for distinguished professionalism in the performance of mentalism. Joseph Dunninger shocked the world in the 1930s with powerful demonstrations of thought reading broadcast live over the radio. Millions of radio listeners were spellbound by the reactions and confirmations of the live studio audience. The programs were later incorporated into a television series viewed by millions. The Dunninger Memorial Award is one of the most respected honors achievable in the art of mentalism.

Milbourne Christopher Award

In 2005, Tim received the Milbourne Christopher Award for his notable contributions to the art of mentalism. The Milbourne Christopher Foundation was established to encourage excellence, originality and leadership in the performing art of magic. Milbourne Christopher Award winners are selected by a panel of judges comprised of leaders from the magic community. The judges look for performers with distinctive personalities and style whose work has won public acceptance and helped to keep magic in the forefront of contemporary entertainment.
